TCx™ Single Station Printer

Single Station Printer Model (6145 - 1TN)

Achieving Brilliant Commerce with Printing Solutions Designed for Retail

Toshiba Global Commerce Solutions is a leader in printing solutions so we understand that point-of-sale printers are an essential part of any high-performance point-of-sale (POS) system. Our extensive expertise in developing printing solutions designed for retail brings systems management, efficiency, and reliability to a variety of retail environments. Retailers are increasingly focused on enhanced functionality that provides personalized experiences for their customers, including offering discount vouchers with printed receipts and enabling loyalty programs for customers.

The TCx™ Single Station printer was designed for performance to increase valuable store uptime, built with the retail-hardened reliability you've come to expect from Toshiba to endure demanding store environments, and developed for easy configuration and manageability so that your printer is always ready when you need it.

Designed for Performance

The TCx Single Station printer is the perfect choice for any business when looking for optimized printer performance. It's a compact, low-profile printing solution that is easy to configure, install and manage with the most popular and industry standard POS operating systems available today (including 4690 and TCx™ Sky).

- > Print head design is superior to our previous printers to deliver the highest speed, print quality, and longevity
- > Fastest Receipt Print Speed - 406 mm/sec (125 lps at 8 lpi)
- > 30+ % paper reduction cost savings (over normal printing mode)
- > ENERGY STAR certified with low power consumption saves on utility costs and reduces environmental impact.
- > Triple network connectivity – Built-in USB and Powered USB, and optional Ethernet, WiFi, or RS232

Retailers

Printing with ease and efficiency while providing power and paper-reduction cost savings.

Associates

A reliable, easy to set up receipt printer that minimizes downtime with simple, rapid paper roll replacement and faster service.

Customers

Reduces customer wait times and keeps the line moving with quick shopping interactions.

Built for Reliability

The TCx Single Station printer design uses the highest quality materials available to meet the rigors of retail environments for lasting performance in harsh surroundings. With its retail-hardened durability protecting your investment, that means continued uptime, fewer service calls, saving valuable employee time, and minimized lifecycle costs.

- > Steel Frame construction to endure high frequency usage and non-stop operation
- > Reinforced and easy to operate paper access cover – push button cover
- > Sturdy latching features to minimize chance of breakage
- > Paper sensor design that is immune to debris
- > Easy in-house serviceability to change components, reducing support calls

Built-in Manageability

Retail operations require accessible, dependable printing to deliver a truly seamless experience for your customers. That means your receipt printer has to continue to perform at its best. The TCx Single Station printer helps retailers better manage the performance and efficiency of their printer with proactive monitoring of the entire POS system to avoid problems that can cause unexpected downtime. By having easier visibility to the life of your printer, you are able to continue providing quick and reliable service to keep checkout traffic flowing and your customers coming back.

- > Thermal Print Head Health Sensor - accurate, programmable sensor system monitors printer head health.
- > Usage statistics – number of cuts, lines printed, etc.
- > Remote monitoring – provides visibility to the status of your printer and address issues before they occur
- > Integrated remote management technology – manage the inventory data, defined events, firmware and configuration updates across all devices at an enterprise level
- > Industry-leading advanced exchange warranty (1 year)
